Red High Risk Factors

High Risk Factors are improper practices or procedures identified as the most prevalent contributing factors of foodborne illness or injury. Circles indicate compliance status (IN, OUT, N/A, N/A) for each item.

IN = in compliance OUT = not in compliance N/A = not applicable CDI = corrected during inspection R = repeat violation

Compliance Status	CDI	R	PTS

Red Critical Points	0
Blue Points	0
Total Points	0

Based on an inspection on this day, the above items are violations, which must be corrected in the time specified by the health officer. A food establishment permit may be suspended without warning, notice or hearing if the requirements of the food code and/or directives of the health officer are not met or if violations are not corrected in the time stated in this report. The permit will be suspended if an imminent hazard exists or if there are 75 or more red critical points or if there are 100 or more blue points. The health officer will provide an opportunity for an appeal on the validity of a suspension or on the findings of an inspection report, if a written request is filed with the health officer within ten (10) days of the suspension or inspection. The filing of an appeal does not stay the effectiveness of a suspension. The completed inspection form is a public document that must be made available to any person who requests it under the provisions of the Right to Know Law.
